WHY FastPull?

Pulling multiple cables to multiple locations is costly, time-consuming and impractical.

FastPull is designed to make installation easy, drastically reduce labor costs, avoid material waste, and simplify jobsite management.

Implementation shows that FastPull cables save between 35-75% labor on every project.

FastPull is the premier solution for your wire and cable needs. It makes a complex process simple. If you're looking to maximize profits without sacrificing quality, FastPull is the product for you; custom built to specific requirements, utilizing all types of wire and cable.

FEATURES & BENEFITS

FEATURES	BENEFITS
Single-reel with multiple conductors/cables	Fewer reels to load and set up; increases safety
Wire/cable custom identified every 3 inches	Identification visible in panel; no ringing-out wires; no need to label wires
UL listed and certified	Inspector approved bundles and assemblies
Quick order turnaround	"Just-in-time" delivery

TWISTED WIRE

Sourcery Wire & Cable is the premier UL certified twisted wire solutions provider. With the capability to twist up to 7 conductors (branch circuit) at up to 12 twists per foot, our twisted wire product meets even the most stringent applications and specifications.

Specs are available upon request.

STRIPED WIRE

Sourcery Wire & Cable is a one-stop shop for your striped wire and cable needs.

With the capability to single, double, or triple stripe in one pass, our striped wire solutions will optimize installation labor.

Common striped wire configurations are shelf stock.

The Sourcery Wire & Cable Story **ABOUT US**

Sourcery Wire & Cable (SWC) was founded in 1983 by Mark and Debbi Sullivan. A true visionary, Mark was convinced he could develop a quick, more efficient way to install multiple conductors in a single pull. Having worked in the wire and cable industry for many years, he created F.F.A.S.T. (Fast Feed and Speedy Termination) cable bundling process, now known in the industry as *FastPull*™. In 2004, after Mark passed away, Debbi assumed the role as President and due to a strong customer base that provided her with the needed resources and support, she made a commitment to the loyal employees for the continued growth and success of Sourcery.

Today, SWC is a project-based UL certified wire processing company, serving electrical and industrial contractors through distribution. We believe it's of utmost importance to successfully uphold the principles and values of quality, diligence, and reliability.

TESTIMONIALS

"Having the cables prepped by Sourcery was the only way we kept up with the accelerated construction schedule."

-Adrian Youngblood

Project Manager, Bombard Electric

"We were able to install over 131,000' of #10 THHN, 1005 wire in 82 bundles, in 1.5 days with two electricians. Normally, this installation would take 1-2 weeks."

-Nate Swigart, Foreman

Redwood Electric

"We broke two studios into manageable zones, obtained accurate wire lengths, and with help from Sourcery Wire & Cable, we installed prefabricated wiring (FastPull) which minimized wire waste and conserved man-hours for setting up and tearing down."

-Tony Campbell, Senior

Vice President, Dynalectric
